HANDCRAFTED LIGHTING

2024 WINTER SUPPLEMENT  
ESSENCE

## ESSENCE

---

The Essence Collection takes inspiration from the timeless beauty of vintage scent bottles. Our skilled glass artists have masterfully captured the essence of lightning in a bottle, resulting in exquisite hand-blown designs. The classic forms incorporate two unique features, including a decorative "stopper" and the use of specialized minerals encased in a thick gather of clear crystal, resulting in a mesmerizing elixir of light that embodies the true essence of our design vision. Indulge in the allure of our stunning collection, where beauty and craftsmanship collide.

Available in standard silver leaf or standard soft gold leaf finish, and your choice of two hand-blown glass options in two different colors.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

### OUR CABLING SYSTEM

Ships standard with 10' adjustable cables. Glass pendants are individually adjustable after installation for optimum composition. This is a major advantage compared to other drop pendant cabling systems that require cutting. Cables are hand adjustable by simply pushing up to shorten the length. To increase cable length, push plunger up and pull cable out.

### CUSTOMIZATION

This collection has multiple canopy configurations. However, through Fine Art Handcrafted Lighting's Customization Program we can make canopies to your specification in size and in number of drops with supplied appropriate transformer capacity. Canopies can be customized in finish and shape, including a version that has been coated with a base primer for you to paint to match your home decor.
